**MAKE
MORE INFORMED DECISIONS**

**FIND
CUSTOMIZED SOLUTIONS**

**GROW
YOUR CUSTOMER BASE**

We Know Carriers

Working with TowerCo means having an industry expert by your side. It means having access to custom and creative solutions. And with that foundation, you have a communications infrastructure that not only meets your needs, but empowers you to grow your reach, strengthen your relationships, and increase your revenue.

Our knowledge and experience in the industry helps you get to market faster, and our creative approach delivers simple, yet powerful solutions.

WHAT WE DO

Leasing space on an existing tower is the fastest and most cost-effective way of getting a site on air. With our tower search tool, you can search TowerCo towers by coordinates, MTA/BTA, site name, site number, and ASR number. Search results can be viewed via a map or listing.

SITE ASSESSMENT

We'll identify and evaluate sites that fit your technical specifications. We'll also look at any implications the surrounding municipalities, communities, and environment will have on the viability of a site, so you'll know exactly what to expect.

SITE LEASING

We'll help you find available sites, navigate key issues like landlord consent and modification requirements, and prepare lease and license agreements. Then, we'll manage the NTP process through site close out.

ZONING ANALYTICS

We'll evaluate zoning to assess how it will affect the timeline and cost of your project, and fully explore permitting requirements.

SITE DEVELOPMENT

Our Build-to-Suit service is focused on meeting your needs while balancing the needs of the community. We'll manage all aspects of development from site identification and planning through completing construction. Or, we can handle just the tasks you need help with.

SITE CONSTRUCTION

Whether the need is a new build-to-suit tower, the modification or reinforcement of an existing structure, we are equipped to handle your tower construction needs anywhere in the country. We are experienced with every facet of the tower construction process – from site acquisition through final inspections, and we have aligned ourselves with select general contractors that are members of NATE, as well as proven leaders and innovators in the tower construction industry.

SITE MANAGEMENT

Our site management capabilities let you build to the specifications you need and minimize your capital outlay. And we take over management of a site whenever it works best for you: at inception, when it's construction-ready, or at construction completion.

HOW WE EMPOWER YOU

We're here to be your honest, expert partner. We give you the facts, work alongside you, and follow a simple, efficient process. Our goal is to help you get things done as easily and quickly as possible.

TowerCo owns, builds, and manages a portfolio of cellular towers and properties. We empower individuals, businesses, and municipalities to connect to what matters.

We develop relationships that last for years. After all — we're in the business of making strong connections. We look forward to connecting with you. Let's talk about how we can be your partner in empowering you to reach your goals.

1

Meaningful Relationships

Our carrier relationships span over twenty years. They're our most valuable asset, so we work hard to earn and maintain your trust by consistently delivering to your expectations.

2

Deep Knowledge

We use our extensive industry expertise to provide you with relevant data and information to help you make more informed decisions.

3

Creative Solutions

We simplify complex processes and understand unique challenges so we can deliver custom solutions that benefit everyone.

4

Positive Growth

We help you build smarter, more seamless networks and coverage, in a cost-efficient way, so you can continually grow your presence and reach.
